

July 29, 2021

Island Health's COVID-19 immunization team is returning to your community in August to provide first and second doses to all eligible residents age 12+.

Appointments are needed. Please ensure that you are registered in the provincial 'Get Vaccinated' system at [www.GetVaccinated.gov.bc.ca](http://www.GetVaccinated.gov.bc.ca), and book your appointment when you receive a link. Alternatively, you can call 1-833-838-2323 to reserve your spot. **If you have not received a notice to book your second dose, and you received your first dose more than 28 days ago, please call the number listed above and tell the agent that you live in a whole community clinic location.**

COMMUNITY	DATE & TIME	CLINIC LOCATION
Sayward	Thursday, August 5, 10-1:00	Sayward Health Centre
Thetis Island	Tuesday, August 10, 10-1:30	Thetis Community Centre
Gabriola Island	Tuesday, August 24, 9:30-3:00	Gabriola Community Hall

This is the last set of whole community clinics. Island Health is working on a sustainable, accessible program for people who miss this clinic and need first or second dose immunizations in the future. We will share more information about this program in the weeks ahead.

**Questions about the clinic in your community? Send an email to:**
